PHP Unconference
am 26./27. April 2008
ab 10.00 Uhr

am Informatikum
der Universität Hamburg

? >

Themen:

PHP
Open Source

wikipedia.org:
"An unconference is a conference where the content of
the sessions is driven and created by the participants,
generally day-by-day during the course of the event,
rather than by a single organizer, or small group of
organizers, in advance."
